

TIP 76 — Use your own Laptop or Desktop via the USB port with Sherline's CNC controller, P/N 8760 (For Windows® users only)/DPP Engineering

Put your Laptop/Desktop to work with the Sherline's 8760
CNC Controller via the USB port
(Free installation by phone)

(Click on the image for details)

This product contains a microprocessor which simulates a complete CNC controller program and thus elevates the processing load from the host computer. It is 100% LPT port pin-out compatible.

This product works with either Artsoft's MACH4 CNC software. A similar product works with Artsoft's MACH3 and UC-CNC.

SUPPORTS: Windows XP, 7 and 8. (Windows 10 not yet!) (No Linux).

NOTE: MACH3 light is free for small files of up to 500 lines of G-code. For larger files MACH3 \$175.00 MACH4 \$200.00
