Lathes (Shipping weight includes weight of packaging materials. Price in US Dollars.)			
<p>STANDARD EQUIPMENT: Sherline lathes include the following as standard equipment: 90 VDC motor w/ electronic speed control, faceplate, drive dog, tool post, pre-sharpened 1/4" high speed steel (HSS) cutting tool, #0 and #1 Morse dead centers, 4 hex adjustment keys, 2 spindle bars, laser engraved aluminum handwheels and 48-page color instruction manual. Sherline machines operate on any incoming current from 100 to 240 VAC, 50-60 Hz without an external transformer. All machines and accessories come with a 1-year limited warranty.</p> <p>DIGITAL READOUTS: Any Sherline lathe or mill can be ordered with factory installed Digital Readouts (DRO). Lathes include 2 encoder handwheels on the crossslide and leadscrew, mills include 3 encoder handwheels for X-, Y- and Z-axes. Electronics box includes 3-axis LED readout plus an encoder for continuous readout of spindle RPM. DRO handwheels replace the standard handwheels, so in the case of the 4400-series lathes and the 5400 and 2000-series mills, the DRO handwheels replace the adjustable "zero" handwheels. Electronics can be initialized to work with either inch or metric machines. 110VAC power supply is included. Machines equipped with DRO are denoted by the machine or machine/accessory package part number followed by the letters "DRO."</p> <p>CNC-READY MACHINES: Any Sherline lathe or mill can be ordered with stepper motor mounts in place of the handwheels ready for the installation of NEMA 23 size stepper motors. (Stepper motors, drivers and software are not included.) Handwheels are included for use on the rear shaft of dual shaft stepper motors, but the stepper motors must be installed before manual control can be achieved. Machines equipped with stepper motor mounts are denoted by the machine or machine/accessory packages part number followed by the letters "CNC". See the CNC Price List for additional CNC components like a driver box and stepper motors. Complete CNC systems including a computer are also available.</p>
